

"The future of Sun Capsule is extremely bright. I am thrilled and welcome the opportunity to partner with Tom to write the next chapter for the Company," commented Chevie.

Plans are in place to move the company forward with improved research and development, the introduction of new products, the expansion of its finance program, and the addition of new industry talent that will support its plans for continued growth in the tanning and fitness industries. "Our mission is to continue to be the industry leader by producing and

thrilled to have Gene remain on the Sun Capsule team while he eases into retirement," stated Holland.

To round out the executive management team, Leslie Browne joins Sun Capsule as Executive Vice President of Marketing. Leslie brings over 25 years of management and marketing experience and will continue to define the Sun Capsule brand.

Cosmedico

Cosmedico Introduces Two New Lamps

Cosmedico, the oldest, premium and leading tanning brand worldwide, recently added two new varieties to its extensive line of high-performance tanning lamps.

The CosmoLux VHR-XT is a 160W high-quality workhorse inspired by the latest advances in European ultraviolet technology. It's produced with the highest quality raw materials and newest advances in UV lamp technology for a long life and consistent output. The result is a more robust standard spectrum lamp with a typical exposure time of 9 to 12 minutes.

With the new CosmoLux 9K90 FLEX, "flex" refers to its exceptional power and output, as well as its versatility, with 160-200 watt capability. It delivers 9K90 phosphor technology to more tanning equipment than ever before

while offering more power for shorter tanning sessions! The 9K90 FLEX also features more UVB added to the 9K90 phosphor blend, while maintaining industry standard for UVA output.

Salon owners in the 21st century demand equipment and technologies that work as hard as they do. Moreover, they demand dependability. The complete Cosmedico product line – from lamps to starters – has defined dependability for an entire industry for over 35 years. Cosmedico's commitment to excellence reaches far into the future and will continue to lead the industry in innovation, quality and product reliability.
